

Resident Water Shutoff Guide

FROST WARNINGS mean that it's time to shut off your outside water!!!

Outdoor Faucet – Here are the steps to safely shut off your outside water:

1. Shut off the water to the outside faucet from inside the house by using the valve near the furnace,
2. Open the knob on the outdoor faucet fixture - for the remainder of the winter,
3. Open the little air bleeder cap on the inside valve as circled in the photo.

SNOWBIRDS: SHUT OFF YOUR WATER (OR WHEN EVER YOU GO ON VACATION)

INSIDE - HELP REDUCE OUR LARGEST SOURCE OF INSURANCE CLAIMS BY SHUTTING OFF YOUR WATER MAIN WHEN YOU LEAVE FOR VACATION. **It's the valve closest to your meter.**
